

# Top 10 Reasons for Using

- Biggest.** *Far more PEOs and ASOs use PayPlus than any other industry software. We've *always* been the leader. With customers of all sizes across the nation, everyone knows we're the "Big Kahuna."*
- Oldest.** *We know your business. In 1986—a long time ago!—we developed the first PEO software. We ran a very successful PEO even *before* then, so we know what we're doing—and we know what *you* want.*
- Boldest.** *We have the very latest and greatest—because we created it! The revolutionary new architecture of PeopleCenter makes information available in ways you could only dream of until now. ezPayPlus, our web self-service product, is absolutely amazing.*
- Best.** *PayPlus is accurate, proven and solid. We have the best people. Our customer support and training are unmatched. We've always been the frontrunner—and we purchased our biggest competitor, so we're in first place *and* second place! PayPlus *is* best. Period.*
- By PEOs.** *PayPlus is owned by a group of our long-time PEO and ASO customers and has an active user group and user forum. Our development is driven by the needs of *all* our customers, large and small. We're there for them and we'll be there for you.*
- For PEOs.** *PayPlus was developed specifically for this industry from the very beginning. It is *not* a modification or work-around of software written for non-PEO companies.*
- Support.** *Our expert technical and customer support teams are unmatched in the industry. Most had extensive PEO, ASO and/or PayPlus experience before joining us.*
- Training.** *Our training specialists are the best around. They stay active in technical support to stay abreast of current trends. Training can be onsite, online, or a combination.*
- Security.** *Multiple layers of security mean your data is secure. You decide who sees what.*
- Affordable.** *Go figure. PayPlus beats the socks off of everyone else and still costs less.*

So.....What are you waiting for?

**PayPlus: Biggest. Oldest. Boldest. Best.**
