

Top 10 Reasons for Using

- Biggest.** PEO, ASO or Payroll Processing, many companies both large and small use PayPlus because it is proven software. We've *always* been the leader.
- Oldest.** We know your business. In 1986, we developed the first PEO software and many of our staff members derived from the PEO and ASO industries, so we know what we're doing and we know what solutions *you* need.
- Boldest.** We are constantly developing solutions to provide additional functionality for our customers. The new architecture of **PeopleHQ** includes a **CRM** (Customer Relationship Management) and **HRIS** (Human Resource Information System) module. The added features within these modules allow you to track a vast array of information on your most valuable assets, *your clients and employees*.
- Best.** PayPlus is accurate, proven and solid. Our customer support and training are unmatched.
- By PEOs.** PayPlus is owned by a group of our long-time PEO and ASO customers and has an active user group and user forum. Our development is driven by the needs of *all* our customers, large and small. We're there for them and we'll be there for you.
- For PEOs.** PayPlus was developed specifically for this industry from the very beginning. It is *not* a modification or work-around of software written for non-PEO companies.
- Support.** Our expert technical and customer support teams are unmatched in the industry. Most had extensive PEO, ASO and/or PayPlus experience before joining us.
- Training.** Our training specialists are the best around. They stay active in technical support to stay abreast of current trends. Training can be onsite, online, or a combination.
- Security.** Multiple layers of security mean your data is secure. The security within PayPlus can be customized to meet the needs of your operations.
- Affordable.** Call for additional information and learn how PayPlus can help alleviate the daily operational burdens you face as a PEO, ASO or Payroll Company.

PayPlus: Biggest. Oldest. Boldest. Best.

 - **SLS Triad** (*required core product*)
 - **ezWEB** (*optional web product*)
 - **PeopleHQ** (*add-on to core product*)

PayPlus Software, Inc.—The Company:

PayPlus Software has developed a suite of PEO/ASO software products designed specifically for the PEO and ASO industries and, to a lesser extent, the temporary staffing industry. PayPlus Software, Inc. is owned by a small group of its long-time customers; however, software development is driven by the requests, suggestions, and technical contributions of the entire customer base. PayPlus was the first PEO software built for the industry back in 1986 and we've grown and evolved right along with the industry.

PayPlus Software has two divisions: ***PayPlus*** and ***SLS Triad***. The PayPlus Division develops and supports PayPlus (core system) and our fully-hosted web product, ezWEB. The SLS Triad Division develops and supports SLS-SQL (core system) as well as our fully-hosted web product, ezWEB. In addition, the SLS Triad Division manages the PayPlus Software Corporate Office near Jackson, Mississippi and handles all accounting matters. For information about SLS, please call 601-952-5227.

PayPlus

The Core Product

PayPlus: Designed specifically for PEOs and ASOs from the start, PayPlus gives you more than just the basics. You get a flexible Invoicing Engine, a comprehensive Payroll **Module**, **Profit Analysis** (cost vs. billed), **Workers' Compensation Administration**, Risk Management, **Benefits Administration**, **HR**, a basic Temporary Staffing module and **Emailing of reports and invoices**. A/P and G/L accounting are optional add-ons. In addition, PayPlus supports many popular **Time Clocks**, **MICR Laser Checks**, and electronic interfaces for **New Hire Reporting**, **401(k) Reporting**, **Tax Filing**, **ACH and Bank Reconciliation**. PayPlus is operating-system-independent and runs on Windows 2003, Windows 2000, Windows NT, Windows 98, and many variations of Unix, including Linux. **Each workstation can run multiple sessions.**

PayPlus can be scaled from a single-user Windows XP Pro or Windows 98 environment to multiple-user Windows 2003, Windows 2000, Windows NT, Linux or Unix network versions supporting the smallest "start-up" operation to the largest PEO. With hundreds of reports, you can access and dispense data to meet both your corporate reporting needs and those of your clients.

SLS Triad: Whether your business is a PEO, ASO or Payroll Company, the SLS Triad gives you more than just the basics. You will get a fully-integrated system in a SQL database which includes a flexible Invoicing Engine, a comprehensive **Payroll Module**, **Profit Analysis functionality** (cost vs. billed), **Workers' Compensation Premium Tracking** (Master and Individual policies), **Benefits Administration**, **HR**, a Temporary Staffing module, **A/P**, **A/R** and **General Ledger** and the ability to email all reports and invoices. In addition, SLS Triad supports many popular **Time Clocks**, **MICR Laser Checks**, and electronic interfaces for **New Hire Reporting**, **401(k) Reporting**, **Tax Filing**, **ACH and Bank Reconciliation**. SLS Triad runs on Windows Server 2008/2003/2000 and/or Windows 95/98/XP/7 workstations.

The SLS Triad can be scaled from a single-user environment to multiple-user network versions supporting the smallest "start-up" operation to the largest PEO. With hundreds of reports, you can access and dispense data to meet both your corporate reporting needs and those of your clients.
