

PayPlus, ezPayPlus & PeopleCenter Prices

START by buying, leasing or renting the PEO/ASO payroll power of *PayPlus*.

NEXT, add *ezPayPlus* for amazing web self-service for an **unlimited** number of clients & employees.

FINALLY, add any number of *PeopleCenter* modules for mind-blowing efficiency and productivity.

You can have ANY number of users—from one to over 500—and *PayPlus* can have a different user count than *PeopleCenter*. The number of users is equal to the number of simultaneous sessions you can run. Here are a few examples to give you a **ball-park idea** of prices. Most *ezPayPlus* and *PeopleCenter* customers use the entire product suite; however, some modules can be purchased individually or in packages.
